

December 13th, 2002

Dear Parent,

Each quarter the geology students have an assigned quarter project. This quarter the assignment is to create an educational video illustrating some aspect of geology. For this project the students will need to spend time off campus filming their video. Before the video is shot the students are required to submit a script describing what scenes are going to be filmed and what information is going to be presented in the video. Please understand that the students will not be on campus for the video filming and for this reason will not have teacher supervision. Before securing your written consent, I ask that you have your students also inform you of their video's activities and filming location.

Thank you for your time and discussion of this project with your student. If you have any questions please feel free to contact me.

Sincerely,

Brian Vanlwarden

Geology Mr. Vanlwarden 276-5916 vaniwab@canon.k12.co.us

Student Name _____

Filming Activity _____

Filming Location _____

I give my student permission to spend their 3rd block (11:09-12:39) on the day of December 20th to work on their geology video. This time is to be spent filming the video in its appropriate setting. I am aware that they will working off campus, without supervision and are expected to be working on this project.
